

### SUMMARY

Dedicated and adaptable full-stack developer with a robust background in Javascript(NodeJS), Ruby on Rails, and TypeScript, showcasing expertise in both front-end and back-end technologies. Proficient in leveraging diverse programming languages and frameworks to create dynamic applications. Solid experience with relational databases and NoSQL DB, including MongoDB. Skilled in SQL database queries, ORM implementation, and containerization technologies. Strong problem-solving abilities, an eye for detail, and a passion for continuous learning ensure the delivery of efficient, scalable, and user-centric software solutions.

### SKILLS

**Front-End:** JavaScript, React & Redux, HTML5, CSS3, NextJS, Typescript

**Back-End:** NodeJS, TypeScript, SQL Database Queries, Ruby on Rails, PostgreSQL, MongoDB

**Tools & Methods:** Git, GitHub, Vercel, Netlify, Heroku, Docker, AWS, RSpec, TDD, Chrome Dev Tools, RESTful APIs

**Professional:** Remote Pair-Programming, Teamwork, communication, Mentoring, Creativity, Problem-Solving, Attention to Details, MultiTasking

### EXPERIENCE

#### HIGHLIGHTED PERSONAL PROJECTS

- Engineered a financial payment web app with Next.js and PostgreSQL, showcasing expertise in scalable architecture and database management.
- Developed e-commerce, task manager, and collaborative job tracking applications (Jobify) using NodeJS and TypeScript for robust back-end functionality.
- Designed and implemented APIs for seamless front-end to back-end communication, enhancing user experience and optimizing data processing.
- Implemented SQL Database Queries for optimized data retrieval and scalable database operations.
- Leveraged relational (PostgreSQL) and NoSQL databases (MongoDB) for efficient data storage.
- Integrated containerization (Docker) for consistent deployment and scalability.

#### MICROVERSE

##### Mentor (Volunteer)

Remote

April 2023– Oct 2023

- Mentored junior micronuts, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Orchestrated and led a team of developers in the collaborative creation of diverse full-stack web applications, employing Agile/Scrum methodologies to ensure streamlined and efficient development processes.

#### WEST AFRICA VOCATIONAL EDUCATION - WAVE (NGO)

Lagos, Nigeria

##### Communications Co-ordinator

Feb 2018– Present

- Pioneered the first-ever Digital Fund-Raising Campaign as a co-leader - Raised \$5000.
- Won Individual award (Exceptional Performer 2019, 2022).

#### PRODUCT DESIGN - Freelance ([Portfolio](#))

Oct 2020 – March 2022

- Habitual – An E-commerce platform where users can purchase items online.
- Travel App – An app allowing users to book flights and hotels from their homes.
- Nano Games – An App that embodies different games for game lovers and saves their progress.

## EDUCATION

MICROVERSE

March, 2023 – Oct, 2023

**Remote Full Stack Web Development Program**

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard Gitflow, and daily standups to communicate and collaborate with international remote developers.

UNIVERSITY OF LAGOS

Feb 2013– Nov 2018

**BSc, Economics**

- The Effect of External Borrowing on Nigeria's Economy Growth (2018).
- Department Entrepreneur of The Year (2016).
